

Short-Term Mission Team Leader Training

International Teams Australia

What if there was a resource that enabled your short-term mission teams and trips to become more effective? Wouldn't it be great to have a tool that helped you multiply and equip your leaders for short-term mission team?

The Team Leader Training will give your leaders practical, hands-on training on Building Character, Building Team Unity, Building Bridges to Culture, Debriefing and Follow-Through. They will go home with practical tools they can use as they train, equip and serve with their short-term mission team.

Your leaders will be equipped to lead team training, and they will be given a notebook and resources including curriculum helps and ideas to use in team meetings before, during and after the trip.

Give your leaders the tools to not only lead their teams effectively but affect life-change in the lives of those whom they lead.

"The training we had with International Teams benefited us as leaders in many ways. We found the training actually simplified what STM is about. We were more confident in the training of our team and the leadership of our team whilst on mission. We also learnt the value of forming relationships with teams members and not focusing so much on tasks."

—Roy & Diane Gardiner, Global Aid Network (GAIN) Australia
