Transition Training

*Preparing for living and
working in another culture*

29 June-15 July 2010
Mt Morton Lodge,
Belgrave Heights, Victoria

About Transition Training

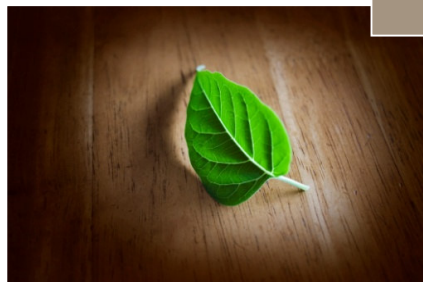

Transition Training is a 17 day orientation program provided by Missions Interlink. The course is designed to enhance the participant's knowledge in Biblical principles and increase missiological awareness. The course provides practical experience in many of the skills necessary for making an effective transition to another culture. The course requires participants to set their own learning contracts and is based around competency development. The various elements of the program are fully integrated and therefore we require full attendance during the course.

Details about the course are intentionally not available prior to the course.

The benefits of the program are:

- a training program based on experiential adult learning
- individual learning contracts providing participants with the opportunity to direct their own learning
- family participation in the experience, with a program specifically designed to help children make this transition
- a team of experienced facilitators drawn from a variety of missions and situations
- community living, enabling peer support and interaction
- contact with specific communities and churches where learning can be pursued and tested
